

Cake Mould Washer

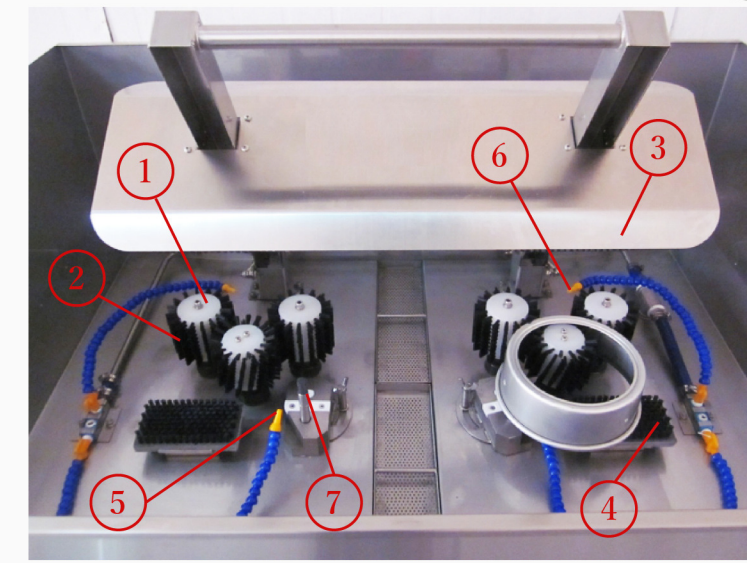

Features

- Whole machine is made of SUS304 stainless steel for durability, compliance with hygiene and anti-rot
- Using energy saving magnetic control enhance energy saving and cost saving
- Providing baking industries an efficient cleaning process

VT-M2

Description	Cake Mould Washer
Dimension	1200*740*1215mm
Loading Dimension	6"~10" 8"~14"
Motor Capacity	0.2kw*2
Cycle Time	20 sec
Capacity	300~360/hr
Inlet / Outlet	3/4" / Φ38mm
Power Supply	400V / 50/60Hz/3ph
Electrical Loading	0.5kw
Net Weight	130kg

- Function1: **Roll Brush (Outer)**
To brush the outside of the cake mould
- Function2: **Roll Brush (Inner)**
To brush the inside of the cake mould
- Function3: **Scrubbing Brush**
To clean the upper of the cake mould
- Function4: **Scrubbing Brush**
To clean the lower of the cake mould
- Function5: **Water Spray**
Spray off the dirt and debris inside the cake mould immediately
- Function6: **Water Spray**
Spray off the dirt and debris outside the cake mould immediately
- Function7: **Groove Brush**
Using custom made inner groove brush to clean the inner groove efficiently
